

Dear _____ ,

Welcome to MASON!

Selecting courses for the first semester is an important step in your academic journey. As an international student, you are eligible for PRIORITY registration if you complete the following:

1. Register for the self-paced online algebra tutorial program, MATH 008, and complete all the exercises. Regardless of your math preparation to date, this online course is mandatory. You should add only MATH 008 (**CRN 81685**) at this time. For instructions on how to please use Patriot Web: <https://registrar.gmu.edu/topics/registration-guide/>.
2. Complete the MATH 008 online tutorial program by August 1st and send your name, G#, and a brief message indicating you have completed th tutorial to the course coordinator via email: gbulance@gmu.edu. Completing this requirement promptly will facilitate your access to scheduling courses prior to orientation.
3. You will be guided in your fall course selection prior to orientation as long as you complete MATH 008. Your academic advisor will contact you about your fall semester course schedule.
4. You are required to attend orientation on August 21, 2018.

NOTE: If you are not interested in majors from the Volgenau School of Engineering, School of Business or the College of Science, please email Ann Lewis, vlewis@gmu.edu, with your G# and the major you are considering.

Please let us know if you have any questions.

V. Ann Lewis

Assistant Dean, Student Academic Affairs, Retention and Transitions
Director, The Center for Academic Advising, Retention and Retentions.
