

Dear College of Science student,

Welcome to MASON!

Selecting courses for your first semester will be vital to the start of your academic career at Mason. As an international student, you may become eligible for PRIORITY registration if you do the following:

1. As a College of Science student, you may be required to take a math course which requires a prerequisite. You will be able to register for our self-paced algebra tutorial, MATH 008 (CRN 81685).
2. To register for this module, you will need to follow these steps:

login to PatriotWeb  
click on Student Services  
click on Registration  
click on Register, Add or Drop Classes  
enter the following, **81685**, into one of the open blocks marked CRN  
click Submit Changes

should you need any additional assistance on course registration, click here:  
<https://registrar.gmu.edu/topics/registration-guide/>

3. As soon as you complete all of the modules, send your name, G#, and a brief message indicating completion to the course coordinator via email: [gbulance@gmu.edu](mailto:gbulance@gmu.edu). Completion of this module in a prompt fashion will allow registration prior to your attending orientation on campus in August.
4. You will receive further communication from the College of Science about course registration prior to your arrival on campus and we are looking to forward to meeting you in person on campus on August 21st.

If you have any questions, feel free to reach out to us via email at [ugradcos@gmu.edu](mailto:ugradcos@gmu.edu).

Assad Khan, Director of Undergraduate Student Affairs  
College of Science  
George Mason University
